

STAMFORD UNIVERSITY BANGLADESH

Department of Computer Science and Engineering

Assignment-1, Spring 2026

0611CSE 327: Microprocessors, Microcontrollers and Embedded System

CT: Tarikuzzaman Emon

Date: 8/04/26

Batch: CSE-S-82(A&B)

Deadline: Within 10 days

Full Marks: 10

1. a) Briefly describe the core specifications of the following microprocessors that contain their detailed features and components description.

- I. Intel Core i9-13900H
- II. AMD Ryzen9 7940HS

Also provide a comparison among all of those microprocessors on the basis of their computing power, speed and other structural advantages and disadvantages. Choose among the processors you think is “THE BEST” and also provide proper reasoning for your answer.

==== GOOD LUCK ====
